2022 Tech Fast 50
Winners' Report

Deloitte's **Technology Fast 50 program recognises, profiles and celebrates Australia's fastest-growing tech companies.**

Now in its 22nd year, it ranks the nation's top 50 public and private tech companies based on percentage revenue growth over three years (2020 to 2022).

Join us as we meet the sector's leading innovators, ground breakers and rising stars, celebrate their impact, and discover how they're shaping Australia's future.

A word from Josh Tanchel

Deloitte Tech Fast 50 Lead

Through historic challenges, Australia's tech sector continues to change the world.

For more than two decades, Tech Fast 50 has witnessed the meteoric rise of Australia's fastest-growing technology companies. Having featured the likes of Appen, Atlassian, Seek and Webjet, the program celebrates the sector's best and brightest – often before they transform into global powerhouses.

While Tech Fast 50 is about recognising some of Australia's biggest movers and shakers, it's also a fantastic opportunity to uncover the tastes, trends and technology resonating with consumers and shaping our future. Put simply, it tells us where Australia's tech sector is now, where it's heading and who's taking us there.

This year, we're excited to expand the program with the launch of two new categories: Climate and Enterprise Growth. More on that below.

Based on three-year growth, the 2022 program is arguably our toughest yet: it covers a tumultuous period punctuated by the pandemic, floods, international conflict, rising inflation and interest rates, and concerns of a global recession.

But despite such acute challenges, Australian tech companies have proven resilient. This year Tech Fast 50 continues to break records and demonstrates the sector's ongoing ability to compete on a global scale.

We're stunned by the performance of the 2022 cohort, from returning listees to a wave of newcomers. They've shown that even in times of uncertainty, tech companies can adapt and capture phenomenal growth.

Foreword

The winner

We are delighted to announce **Montu** as the winner of Tech Fast 50 2022. The company's integrated digital system for medicinal cannabis has seen it record an extraordinary 20,728% growth – the highest rate we've seen in a winner since 2004. Montu has demonstrated an outstanding ability to scale at pace while staying true to its mission: improving the lives of millions of people through medical cannabis therapies.

We would also like to congratulate the companies that rounded out our top three in 2022, **FrankieOne** (4,743% growth) and **me&u** (3,819%). See profiles of our top three from [page 24](#).

Leadership

This is where we recognise Australian tech companies featuring in this year's Tech Fast 50 list that had revenue of more than \$50 million in the final reporting year (2022). Congratulations to **BetMakers** which topped this category, followed by **Cettire** and **Wisr**. Read their profiles from [page 29](#).

Female leadership

This year, we saw significant representation of companies with a female founder, co-founder or CEO. That makes the achievement of **me&u** and its CEO Katrina Barry even more impressive, with the company's 3,819% growth placing it first for Female Leadership and third overall. See our **me&u** profile on [page 33](#).

Rising star

Our Rising Star category is reserved for emerging, fast-growing companies founded in the last three years. Impressively, all 2022 nominees had a growth rate greater than 150%.

We're delighted to announce **J4RVIS** as our Rising Star for 2022, followed by **Vityl** and **Driva** to round out the top three. Discover more about these up-and-comers from [page 38](#).

Foreword

New for 2022: Climate award

This year, we're thrilled to launch a new Climate category open to Tech Fast 50 companies in the climate technology space.

Deloitte is committed to helping solve the climate crisis through initiatives such as our carbon forest program and the switch to 100% renewable energy for our buildings. We're also determined to reach – and help our clients reach – net zero. This award recognises technology's vital role in the world's journey to net zero and underscores our commitment to that.

Tackling climate change is the challenge of our lifetime and almost 40% of solutions needed to reach net zero rely on emerging technology that, in some cases, is still in prototype. More than \$5 trillion will be invested globally per year over the next eight years to solve the climate crisis, and technology is central to this effort.

Tech Fast 50 Climate winner 2022

We congratulate the inaugural winner of the Tech Fast 50 Climate award, **EVSE** Australia. The team is seeing strong growth as they drive the transition to electric vehicles with turnkey charging solutions, and they've demonstrated a clear focus on reducing their own environmental impact. Find out more on [page 42](#).

"I joined Deloitte to have some part in saving the world. I knew that by focussing on emerging technology, we could not only help solve some of the world's greatest challenges, but also support and amplify the work of many entrepreneurs also focussed on this area.

"When I was six years old, I told my dad I was going to save the world. Forty years on, I'm playing my part in doing that."

Andrea Culligan, Lead Partner, Innovation & Ventures
Climate & Sustainability Global Lead, Emerging Climate Tech, Deloitte

Foreword

New for 2022: Enterprise Growth

We're also excited to expand Tech Fast 50 2022 with a new Enterprise Growth category, highlighting the largest and fastest growing tech companies in Australia. To be eligible, nominees must have operating revenues of at least \$50 million in the first reporting year (2020).

Achieving continued growth at such scale is no mean feat, and it's a challenge many companies on the 2022 list may face in the years to come. Our inaugural Enterprise Growth award goes to a fintech company that's no stranger to Tech Fast 50, having made the list six years and counting – including two top-ten finishes and a Leadership win in 2020.

Tech Fast 50 Enterprise Growth winner 2022

Congratulations to **Zip**, which grew 287% to become our first winner in this category. Having experienced the highs of rapid growth followed by tough periods of volatility, the team has successfully refined their strategy and shaped a more profitable, future-ready business that continues to grow at scale. Read more from [**page 44.**](#)

“The Enterprise Growth category recognises organisations who have already scaled and are continuing to grow. These companies are leaders in the industry and to achieve growth at this scale takes continuous investment and innovation around product and customer and the ability to deal with increasing organisational complexity. Growth at this scale is impressive and we want to recognise that.”

Josh Tanchel, Leader, Deloitte Technology Fast 50 program | Partner, Deloitte Private

Foreword

Key trends: What we learned

Records tumble (again)

Another year of Tech Fast 50, another stack of records broken.

The sensational growth rate of 2022 winner Montu has set an 18-year Tech Fast 50 record. And we saw an average growth of 1,308% across the top 50, a massive leap from 936% in 2021 and another record since 2004.

The barrier for entry was again lofty at 264%, highlighting the incredible depth and quality of Australia's tech sector. Impressively, 15 companies had more than \$50 million revenue in the three-year reporting period, while 11 achieved more than 1,000% growth.

We're also proud to see significant representation of companies with a female founder, co-founder or CEO – reaching 20% in the 2022 list – and we look forward to this percentage increasing in the years ahead.

Sectors to watch

A close look at this year's top 50 tech companies reveals distinct trends. Healthtech has found the spotlight in 2022: overall winner Montu led the way, while Cannatrek, AirPhysio, PlayHQ Sports and Fresh Clinics all ranked inside the top 10.

Software had the biggest year-on-year surge, making up 38% of our 2022 list (up from 16% in 2021). Other sectors featuring in our top 50 include fintech, communications, digital and media, and online and direct-to-consumer.

Geographically, New South Wales once again led the charge (56% of listed companies), followed by Victoria (24%), Queensland (12%), South Australia (4%) and Western Australia (4%).

Growing at scale

Eight companies qualified for our Leadership category in 2022 after exceeding \$50 million in revenue in the final reporting year. With six achieving this in 2021 and four in 2020, we're seeing an increasing number of Australian tech companies able to continue innovating and growing at scale. This is an incredible achievement: the growth rate required to make the Tech Fast 50 becomes harder the bigger a company gets. It's a trend reinforced by Zip, which takes out our Enterprise Growth award after recording more than \$50 million in revenue in the first reporting year.

Foreword

The path to profitability

In a changing economic environment, Australian businesses are being forced to adapt. We're seeing a flight to quality among risk-averse investors who now have a stronger appetite for companies that are already profitable – or those that have a clear roadmap to get there.

This pathway to profitability is crucial for tech companies over the next 12 months, and it's likely to have a major influence on our next Tech Fast 50. Companies that can demonstrate a sound, sustainable business model – not just growth at all costs – will find it easier to raise capital and continue expanding at scale. For those that can't, it may be a question of slowing growth until they can rethink and refine their strategy. For those that have raised capital this may present consolidation opportunities.

It's also impossible to ignore the rising importance of environmental, social and governance (ESG) factors. Investors, customers and regulators are pushing for more sustainable businesses, creating unique challenges for tech companies as they chase growth. The good news? Those that manage to clear these hurdles can shape a future-proof business model, improve compliance, minimise their environmental impact and, ultimately, create a better future.

What's next?

It's a privilege to continue bringing together the tech sector's most inspiring leaders, visionaries and future-thinkers. These extraordinary people work with technology every day to challenge the status quo, rewrite the rules and reimagine the world, making lives easier, smarter, safer, healthier and more sustainable.

The year ahead is not without its challenges, including the threat of a global recession. But we've already seen our tech sector weather – and in many cases excel through – one of the toughest three-year periods in recent memory, and how it can help solve the world's biggest problems. Anything's possible, so join us for the ride.

Thank you

We're thrilled to have ASX, DLA Piper, Morgans and NAB return as sponsors in 2022, and are equally pleased to welcome Workday to the fold for the first time. Thank you all for your ongoing support. We'd also like to thank everyone who nominated for Tech Fast 50 this year. Whether your company made the top 50 or missed out, we applaud you on your growth and can't wait to see what's next.

Congratulations to all our Technology Fast 50 Australia 2022 winners!

Congratulations to all
our 2022 Tech Fast 50
Australia winners!

A word from ASX

Helen Lofthouse

Managing Director and Chief Executive Officer

ASX continues to be a proud sponsor of the Deloitte Technology Fast 50 awards.

This is the ninth consecutive year we have been associated with the event. We are increasingly impressed by the high calibre of companies that make the winners' list each year.

The companies appearing on this year's Tech Fast 50 list have shown themselves to be outstanding leaders in their fields. My congratulations to all those nominated and a special call out to the 2022 winner, Montu.

It is pleasing to again see such a wide representation of ASX-listed technology companies in this year's awards. The technology sector continues to be the second largest sector on the exchange by number of listed companies and includes over 20 firms worth more than a billion dollars.

Whilst 2022 is proving to be a testing time in both the public and private markets, the support and development of the Australian technology sector remains a key long term focus for ASX as Australian companies continue to drive new technologies and innovation.

Nominations put forward for the Tech Fast 50 continue to impress and it's incredibly exciting to see these innovators developing solutions across a range of industries and sectors.

Sponsors

A word from ASX

ASX is consistently ranked among the world's leading exchanges for both number of IPOs and capital raised, and has emerged as a global home for mid-cap technology listings. In recent years, we've attracted a steady flow of listings not only from our home market, but also from New Zealand, the United States, the UK, Israel, Singapore, Canada and Ireland.

The depth of the superannuation pool and access to growth capital from domestic and global institutional investors through earlier index inclusion sets ASX apart from other international exchanges. We are proud to sit at the heart of Australia's and New Zealand's financial market, helping companies raise capital to grow and achieve their goals, and enabling investors to build long-term wealth. We can't do it without the quality and ingenuity of the companies on show among the Tech Fast 50.

We look forward to welcoming many more technology businesses to ASX and wish all the Deloitte Technology Fast 50 finalists a bright future.

Many entrants for this year's award had a strong focus on sustainability and decarbonisation – an increasingly important theme as Australia transitions to net zero over the coming years.

A word from DLA Piper

Anthony Lloyd

Partner and Technology Sector Leader, Australia

Congratulations to the all the Fast 50 finalists for their success in difficult market conditions.

Despite upheavals to the global economy and supply chains, the technology sector continues to lead the market as it develops solutions which improve the way we live and work.

As the development of new technologies continues, so do the regulatory, legislative and societal hurdles associated with this change. Governments across the world are increasingly grappling with challenges such as cyber security and anti-money laundering.

Navigating these risks will become more complex, especially for multi-jurisdictional organisations, which will also come with a greater compliance burden. Digital disruption does not end at borders, which means that increased cooperation between countries will be required for effective governance of some technologies, while other technologies will become accepted without the need for intervention.

I'm optimistic that whatever challenges may be posed, it will pale in comparison to the unleashed human potential of these new technologies.

With new and emerging technologies redefining what's possible, businesses must continuously evolve digitally to succeed. DLA Piper is here to support you. We advise technology sector clients at all stages and with a global platform we are leaders in what we do, whether it be a seed deal, an IPO exit, or anything in between. Thank you to Deloitte for providing a platform to profile Australia's fastest growing technology companies. We wish all the Fast 50 finalists continued success.

Congratulations to the 2022 winner, Montu.

A word from Morgans

John Clifford

Managing Director and CEO

Morgans Financial Limited is delighted to be a sponsor of the Deloitte Tech Fast 50 and proud of the achievements of the 2022 winners.

As the largest national full-service stockbroking and wealth management network in the country, we specialise in capital raising and corporate advisory solutions to assist all companies across every sector. Morgans is passionate about the technology sector and helping emerging small to mid-cap companies accelerate and grow their businesses.

In the past two years and amid challenging conditions in 2022 in the macro environment, our leading Equity Capital Markets team completed more than 170 capital market transactions including pre-IPOs, IPOs, secondary raisings, block trades and hybrid offers, raising more than \$5.8 billion. We are proud to support our clients (including some that are current and previous finalists, listed and unlisted) across the full spectrum of corporate advice.

Tech Fast 50 provides a platform to enable companies to fast track their capabilities and it is wonderful to see nominees and winners pursuing technology-driven solutions in a constantly evolving environment.

We are excited about the potential of these companies and look forward to supporting them in their future growth aspirations.

We congratulate the nominees, the Top 50 finalists and the winner, Montu. The calibre of companies leading the way in shaping Australia's technology industry is driving huge opportunities for growth and it is fantastic to see the entrepreneurial spirit alive and well in Australia.

Congrats to the 2022 winner, Montu.

A word from NAB

Phoebe Haberley

Associate Director – eCommerce & Tech
High Growth and Emerging Corporate |
National Australia Bank Limited

Never have we
been more reliant
on fast and effective
technology-driven
solutions across a
range of industries.

This commitment to solving short and long-term issues for customers is displayed by this year's Fast 50 nominees and we congratulate them all.

Innovation and investment in growth sectors will enable a productive, inclusive, and resilient economy, with new strengths in both the domestic and export sectors.

Our specialist team of eCommerce and Tech bankers are focused on supporting scale up-stage technology companies, and they are already helping many clients explore great opportunities to drive changes to how we live, do business, and interact with each other.

We know how important it is for emerging companies to have proactive support from their bank through every stage of their development. Many of our strongest client relationships – including some with previous Tech Fast 50 nominees and winners – grew through partnerships at the very early stages of their journey.

Our High Growth & Emerging Corporate Bankers are actively working with these clients, ranging from large fintech companies to start-ups, to help them grow. Our understanding of transactional banking products that maximise cash flow efficiencies, different funding options, and how to access low-cost/ non-dilutive capital can all maximise capacity for rapid investment in growth.

We are proud to be part of this major event on the Australian technology calendar in partnership with our co-sponsors, ASX, DLA Piper, Morgans, Workday and, of course, Deloitte.

As we move ahead with the all-important recovery phase following COVID-19 while in a volatile interest rate environment, we know that our technology companies will continue to be at the forefront of new ways to work, conduct business and live well in the years ahead.

Sponsors

A word from Workday

Tertius Bezuidenhout
Regional Sales Director

Workday would like to congratulate all the winners and nominations in this year's Tech Fast 50 program.

We are delighted to support companies, individuals and initiatives that contribute to building a community of like-minded peers who are essential to driving innovation.

We look forward to seeing all winners and nominated companies continuing the tradition of the many Australian and New Zealand start-ups who have since grown to become well-known brands in local and global markets.

About our top three

#01 **Montu**
Growth 20,728%
montu.com.au

Montu has built an integrated cannabis ecosystem, which streamlines the journey for patients end-to-end, and sets new standards in cannabis care. We connect Australians to highly qualified doctors via our alternaleaf telehealth platform, from the comfort of their home. From online booking to tele-consultations, product selection and dispensing of medication, we provide patients with a supportive and judgement-free environment.

Montu works with some of the most experienced cannabis prescribers in Australia. We actively support doctors with a clinically trained Patient Care team and provide access to our custom-built patient management system, to achieve optimal patient outcomes at scale.

We have built close relationships with brands and pharmacies to deliver the best products, fast and convenient. To facilitate a streamlined dispensing process, our cutting-edge Circuit fulfilment platform integrates with a nationwide pharmacy network and coordinates deliveries across a growing brand portfolio of high-quality products, to ensure patients receive the most personalised treatment plan.

Montu's mission is to create an affordable and accessible path to medical cannabis therapies, so more Australians can achieve better health.

About our Rising Star top three

#02 **Vityl**
Growth 7,560%
vityl.com

Vityl is a patient-centric chronic care platform dedicated to helping patients suffering from chronic illnesses.

Vityl uses its unique online platform and medical management software to connect its team of doctors, specialists, allied health experts and coaches with patients to coordinate seamless and effective care the most chronic concerns.

About our Rising Star top three

#03 **Driva**
Growth 4,210%
driva.com.au

Driva is a fintech platform that empowers all Australians to get the best deal on vehicle finance. For most consumers, purchasing a vehicle is the second largest purchase they will make in their lifetime, with ~90% of all car sales arranged through finance in Australia. Yet traditionally, car finance has been fraught with ambiguity and stress.

Driva helps consumers navigate an increasingly complex market, using a loan matching algorithm of thousands of data points to help customers find and apply for their best car loan option in-market. In a few steps, customers provide their basic details online, and are instantly presented with accurate personalised interest rates from the 30+ lenders on our platform.

In the background, our smart loan matching engine is running the customer information through our proprietary database of lender policies, enabling us to instantly determine the exact rate available for that customer for each eligible lender. These are presented back to the customer in a highly transparent and simple way to allow for easy comparison across products. Once a customer self-selects their preferred option, our system and team run a more detailed assessment to ensure a high approval confidence before passing on the customer to their chosen lender – ensuring a faster outcome, better rate, and higher approval likelihood. It also drives good outcomes for lenders, who get higher quality and better converting leads.

Driva launched in February 2020 and has taken market share rapidly, growing more than 39% month-on-month since inception (as at 30 June 2022). We believe our platform is a first-in-market to be able to accurately price and provide eligibility confidence to customers, saving customers thousands of dollars in interest cost each year and protecting their credit files from unnecessary enquiries with lenders they otherwise wouldn't be eligible for.

About our Climate award winner

#01 **EVSE Australia**
Growth 280%
evse.com.au

Since 2015 EVSE Australia has been on a mission to drive the transition of the vehicle fleet to electric, by providing the most comprehensive turnkey range of electric vehicle charging solutions.

Our aim is to make owning an electric vehicle as easy as owning a petrol vehicle, by simplifying the process to deploy the right solutions across the residential, commercial, fleet, and public space.

Our turnkey approach incorporates engineering and design, hardware procurement, installation, software, and on-going support so that customers can be confident to make the switch to an electric future.

Deloitte.

This publication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively the “Deloitte Network”) is, by means of this publication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser. No entity in the Deloitte Network shall be responsible for any loss whatsoever sustained by any person who relies on this publication.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited (“DTTL”), its global network of member firms, and their related entities. DTTL (also referred to as “Deloitte Global”) and each of its member firms and their affiliated entities are legally separate and independent entities. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

About Deloitte

Deloitte is a leading global provider of audit and assurance, consulting, financial advisory, risk advisory, tax and related services. Our network of member firms in more than 150 countries and territories serves four out of five Fortune Global 500® companies. Learn how Deloitte’s approximately 286,000 people make an impact that matters at www.deloitte.com.

About Deloitte Asia Pacific

Deloitte Asia Pacific Limited is a company limited by guarantee and a member firm of DTTL. Members of Deloitte Asia Pacific Limited and their related entities provide services in Australia, Brunei Darussalam, Cambodia, East Timor, Federated States of Micronesia, Guam, Indonesia, Japan, Laos, Malaysia, Mongolia, Myanmar, New Zealand, Palau, Papua New Guinea, Singapore, Thailand, The Marshall Islands, The Northern Mariana Islands, The People’s Republic of China (incl. Hong Kong SAR and Macau SAR), The Philippines and Vietnam, in each of which operations are conducted by separate and independent legal entities.

About Deloitte Australia

In Australia, the Deloitte Network member is the Australian partnership of Deloitte Touche Tohmatsu. As one of Australia’s leading professional services firms, Deloitte Touche Tohmatsu and its affiliates provide audit, tax, consulting, and financial advisory services through approximately 8,000 people across the country. Focused on the creation of value and growth, and known as an employer of choice for innovative human resources programs, we are dedicated to helping our clients and our people excel.
